

Adding Data to QIDA

William Cosgrove, MD, FAAP

Log into <https://qidata.aap.org/district8hpv>

Log In

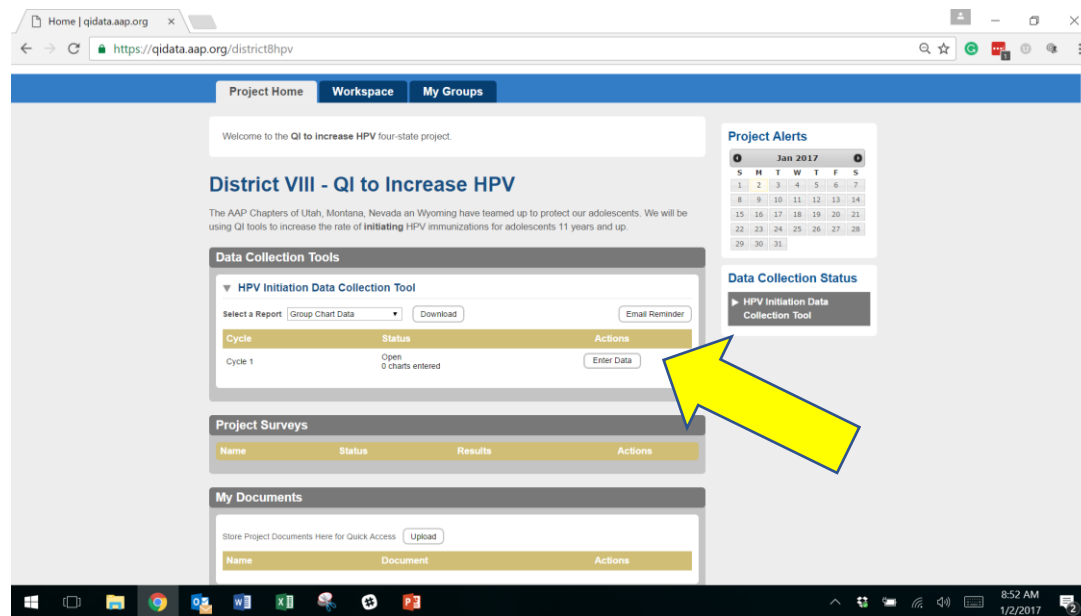

The screenshot shows the login page for the project. The browser address bar displays the URL: <https://qidata.aap.org/district8hpv/welcome?sso=true&nfstatus=401&nfoken=00000000-0000-0000-0000-000000000000&nfstatusdescription=ERROR%3a>. The page features the American Academy of Pediatrics logo and a navigation menu with 'Project', 'Contact Us', and 'Help'. The main content area has a blue header with 'Home' and a large white box with the title 'Quality Improvement to Increase HPV Immunization (Montana, Nevada, Utah and Wyoming)'. Below the title is a description: 'This is a four -state project using QI principles and tools to increase the rates of immunizing adolescents against cancer-causing HPV infections.' To the right of the text is a login form with fields for 'AAP ID or email address' and 'Password', a 'LOG IN' button, and links for 'Don't know your login?' and 'Forgot your password? Create a password?'. The Windows taskbar at the bottom shows the time as 8:41 AM on 1/2/2017.

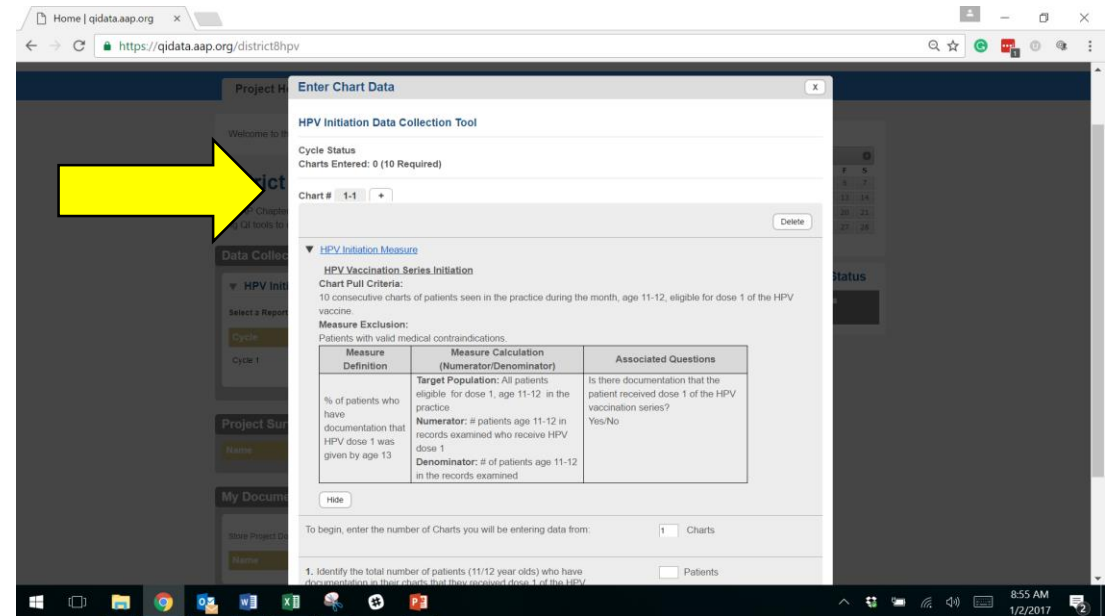

Click on HPV Initiation Data Collection Tool

The screenshot shows the 'HPV Initiation Data Collection Tool' page. The browser address bar displays the URL: <https://qidata.aap.org/district8hpv>. The page features the American Academy of Pediatrics logo and a navigation menu with 'Project Home', 'Workspace', and 'My Groups'. The main content area has a blue header with 'Project Home' and a white box with the title 'District VIII - QI to Increase HPV'. Below the title is a description: 'The AAP Chapters of Utah, Montana, Nevada an Wyoming have teamed up to protect our adolescents. We will be using QI tools to increase the rate of initiating HPV immunizations for adolescents 11 years and up.' To the right of the text is a 'Project Alerts' calendar for Jan 2017. Below the text is a 'Data Collection Tools' section with a link to 'HPV Initiation Data Collection Tool'. Below that is a 'Project Surveys' section with a table with columns 'Name', 'Status', 'Results', and 'Actions'. Below that is a 'My Documents' section with a table with columns 'Name', 'Document', and 'Actions'. The Windows taskbar at the bottom shows the time as 8:43 AM on 1/2/2017.

Click Enter Data

1-1 means Cycle 1, Chart 1. Next month you will have a new tab.

#1 – Enter the number of charts you intend to enter for this cycle (anticipated to be 10 per month). Enter the number of patients that receive their initial HPV dose.

HPV Initiation Measure

HPV Vaccination Series Initiation

Chart Pull Criteria:
10 consecutive charts of patients seen in the practice during the month, age 11-12, eligible for dose 1 of the HPV vaccine.

Measure Exclusion:
Patients with valid medical contraindications.

Measure Definition	Measure Calculation (Numerator/Denominator)	Associated Questions
% of patients who have documentation that HPV dose 1 was given by age 13	Target Population: All patients eligible for dose 1, age 11-12 in the practice Numerator: # patients age 11-12 in records examined who receive HPV dose 1 Denominator: # of patients age 11-12 in the records examined	Is there documentation that the patient received dose 1 of the HPV vaccination series? Yes/No

To begin, enter the number of Charts you will be entering data from: Charts

1. Identify the total number of patients (11/12 year olds) who have documentation in their charts that they received dose 1 of the HPV vaccination series: Patients

Submit Reset Cancel

- The 10 charts for December will become your baseline data.
- Contact alisa@aaputah.org if you do not have 10 charts available to enter. Your cycle can be closed manually.
- #2 - Once the numerator and denominator have been entered, click submit.
- Send an email to alisa@aaputah.org to confirm completion of data entry.
- The state registry information you have obtained, will be used to show progress for the project as a whole, but does not get entered into the QIDA system.
